NATION FACING MEAT DEARTH BY EARLY 1948

Crop Reports, Predictions Indicate Meat Will Be Down 10% by 1948

(By Associated Press)
WASHINGTON, July 11.—The nation faces the prospect today of possibly 10 per cent less meat by early 1948.
Such a reduction would be accompanied by higher prices if consumer demands continues strong.
These possibilities are based on an agriculture department crop report yesterday forecasting a sharp drop in the corn crop as a result of one of the worst planting seasons on record.
The corn crop—which is the basic raw material for meat, dairy and poultry products—was forecast at 2,612,809,000 bushels. This compares with last year's record of 3,287,927,000, the government's goal of 3,000,000,000 bushels and a ten-year average of 2,639,927,000.

Corn Needed Badly
Officials said a crop of around 2,850,000,000 bushels of good quality corn would be needed to maintain meat production at the present level of 165 pounds a year for each consumer.

A crop of the size indicated, officials said, would require a cut in meat production of about 10 per cent, or about 15 pounds per consumer. This still, however, would leave supplies at about 138 pounds per person compared with the pre-war average of 126 pounds.

Officials are not ready, however, to accept the corn forecast as final. Still holding hope for a harvest of at least 2,850,000,000 bushels, they noted that acreage planted to corn is only 4.9 per cent below last year when the record crop was produced, despite adverse planting season weather.

Grain experts said that if corn gets a "good break" on the weather during the remainder of the summer and is not caught by an early frost before it has matured, the crop could easily reach 3,000,000,000 bushels. In that event, there would need be no reduction in livestock production.

The department's forecast was based on conditions prevailing July 1, a time when floods still darkened the outlook. It did not take into account improved weather during the first 10 days of July.

Offsetting to a degree the rather gloomy corn forecast was a prediction that the wheat crop will exceed last month's record figure of 1,409,000,000 bushels by 25,000,000 bushels. The wheat supply will be sufficient to allow large exports and permit some to be used for livestock feed, if necessary.

Michael Schuller, 433 E. Fourth st., today filed his candidacy with the Columbiana county board of elections as a candidate for the position of board of education member for the Salem public school district. Schuller thereby became the first candidate declaring intentions for the November election, at which time voters will name three to the five-man board of education for five year terms.

Schuller, a member of the Mullins Mfg. Corp. personnel department, has been an active booster club member since the organization of the group and is closely interested in Salem High school and public school work.

He will seek a position open with the closing of terms this year for three men. President John T. Burns, George Lozier and F. P. Mullins.

None of the incumbents have as yet indicated their intentions to seek re-election, but Mullins several months ago asked the board to accept his resignation. He remained on the board when his resignation was refused.

JAYCEE YOUTH WEEK COMMITTEE SELECTED
The first steps toward the annual Junior Chamber of Commerce annual Youth Week in Salem were taken Thursday evening at a board of directors meeting at the home of Henry Schuller.

A planning committee was appointed, composed of President Darrell Rosenberg, Jack Patterson, Robert Whitehill, Roy Yeager and William Wagoner. The group will meet tonight to lay plans for the 60th annual affair.

Wagoner made a report on the national Jaycee convention, held recently in Long Beach, Calif., which he attended.

A steak dinner preceded the meeting.

Senate Schedule Omits Housing, Bond-Cashing Bills

(By Associated Press)
WASHINGTON, July 11.—Measures providing for a long-range housing program and for immediate cash payment of terminal pay for veterans were omitted today from a list of legislation scheduled by senate Republican leaders for action before adjournment of congress July 26.

Chairman Taft (Ohio) of the senate Republican policy committee told reporters the GOP leaders plan to try and push the \$4,000,000,000 income tax-cutting bill and a cluster of delayed appropriations bills through the senate by Tuesday.

After that, he said, 10 measures regarded as "non-controversial" will be expedited to completion. Missing from this list were bills for housing, cash terminal pay for veterans, the St. Lawrence Seaway project and increasing the national hourly minimum wage scale.

But Taft, in answer to queries about these, said they may get congressional approval if it can be agreed to act "without long debate."

Taft outlined at a news conference the Republican plans agreed to at a strategy session of senate GOP leaders last night.

Taft listed these measures for action following tax and appropriation legislation:

President Truman's reorganization plan No. 3 to establish a central housing and home finance agency. This was rejected June 18 by the house but the senate banking committee has recommended approval. Taft said he will support it.

Both the senate and house must reject a presidential reorganization plan to defeat it.

A senate bill to increase subsistence allowances to veterans who are studying under the G. I. Bill of Rights.

A senate bill to authorize continued purchase of automobiles for blind and amputee veterans.

A house-approved resolution that would allow citizens of Puerto Rico to elect their governor. Currently he is nominated by the president and confirmed by the senate.

A senate resolution to extend the wartime safety codes for mines.

A house-approved measure freezing social security taxes at 1 per cent each for employers and employees. Unless this is approved the taxes would rise to 2 1/2 per cent each at the end of this year.

A five-year extension of the sugar quota system.

A senate resolution approving the convention for trusteeship over Pacific islands under the United Nations.

A resolution approving the site agreements for United Nations headquarters in New York City.

A house-approved bill increasing payments to Spanish-American war veterans.

Taft said that all of the 10 measures have been approved by committees and are on the senate calendar but that passage has been held up by the objections of a few senators.

SEES TAX VETO BEING UPHELD IN SENATE VOTE

Democratic Whip Predicts Truman's Veto Would Be Sustained by Dems

(By Associated Press)
WASHINGTON, July 11.—Senator Lucas of Illinois, the Democratic whip, declared today the senate "definitely can sustain" President Truman's promised income tax reduction bill.

The party liner-upper also told reporters, however, he is not at all sure the senate will get a crack at overriding the chief executive.

"It (the veto) might be sustained in the house again," Lucas remarked.

The bill will come to a vote there first after its round-trip to the White House.

But Senator Wherry of Nebraska, the Republican whip, said he feels "absolutely certain" the house will vote to override.

The house, which passed the first tax cut bill 273 to 137 but then failed by two votes to get the required two-thirds margin to override, re-passed the measure by a tally of 302 to 112.

As for the senate, Wherry said: "I think we have the votes."

Both Wherry and Lucas voiced hope the senate would reach a roll call today.

Before the final decision, however, the chamber faced votes on a series of amendments.

Senator McClellan (D-Ark.) wants to permit husbands and wives the nation over to split their income for tax purposes, a privilege that in most cases would result in a lower total tax. Only married couples in a dozen states with community property laws are allowed to do so now.

Also Senator Revercomb (R-W.Va.) insists that the personal exemptions for married couples, now \$1,000, be raised to \$1,250 or \$1,500.

And Senator Morse (R-Ore.) said he planned to offer five or six amendments, but he declined to specify their contents in advance.

Morse told newsmen there is "no question that the Republican leadership is playing politics" with the pending bill. He added there is "great danger that it will be boomerang against the best interests of my party."

SCORES LOOK ON AS WOMAN LEAPS
(By International News Service)
PITTSBURGH, July 11.—Police today sought for questioning the companion of a 45-year-old woman who fell off a ledge to her death from a third floor window of a downtown Pittsburgh hotel while scores of horrified pedestrians watched.

The woman was identified tentatively as Mrs. Al Kovak of Columbus.

J. D. Kiefer, hotel room clerk, said she had registered Wednesday with a soldier as Mrs. and Mrs. Al Kovak, Columbus.

The soldier could not be located immediately.

The victim went out the window while a bell boy waited outside the door to pick up her bags. She died instantly.

Homicide Detective John Nugent said the woman left only a hastily scrawled note with the salutation "Dear Mother and Vera." It contained but one other word, which appeared to be "Beatrice."

There was little more than a dollar in change in the room.

Will Tell Congress How Increases May Effect U.S. Economy

WASHINGTON, July 11.—President Truman today decided to send congress within the next ten days a special mid-year report on the economic outlook, including the possible effect of John L. Lewis' new coal wage gains on living costs.

Presidential Secretary Charles G. Ross said this was decided at a meeting of Mr. Truman with his cabinet. He said the consensus of the meeting was that there has been "a tendency to exaggerate the importance of the coal settlement on the overall wage picture."

"Of course, if prices should go up as a result, that would be a matter of concern," Ross added.

ENLARGED COUNTY HEALTH PROGRAM BEING SOUGHT NOW
LISBON, July 11.—Purchase of a fluoroscope to aid in tuberculosis detection and check-ups was approved by the Columbiana County Health Board at a meeting in its offices here, Dr. B. B. McGuire, county health commissioner stated today.

The equipment will be purchased as soon as possible and placed in the offices of the county health department.

Employment of a sanitarian, an office clerk, and a third field nurse the latter to succeed Miss Mary Bruy, whose resignation will become effective August 1, were also approved by the Board as a part of the expanding of the county health program under the new health commissioner who assumed his duties July 1.

For County-Wide Checkups
A sanitarian, Dr. McGuire pointed out, would be necessary for a constant county-wide hygiene check-up of public places, restaurants, taverns, and investigation of nuisances.

Employment of a full-time office clerk in the department, a position which Miss Bruy, a registered nurse has filled, would free another nurse for work in the field Dr. McGuire said.

The two field nurses, Miss Alice Crowell and Mrs. Virginia Kessler, will take post-graduate courses in public health nursing within the next few weeks.

Dr. McGuire, stated that while he is prohibited from practicing medicine while in the capacity of health commissioner, he expects to work 100% with local physicians who will be called into any case of suspected contagion.

Both the sanitarian and office clerk would be paid from state funds which are now available for that purpose with the establishing of the full-time health department here, Dr. McGuire said.

Sheriff Links New Fires With Prank
LISBON, July 11.—Two incendiary fires in Middletown township, near Rogers, were being linked today with the false alarm in Fairfield Monday by Sheriff George Hayes.

Felix Sikorski discovered a fire in his home at 5 p. m. Thursday, which he extinguished. Investigation showed signs of oil having been scattered about the house. Sikorski was slightly burned.

The other fire was discovered at 7 a. m. today at the C. M. Cooley farm, not far from Sikorski's. The blaze, discovered by the family as they returned home from Pittsburgh, consumed the straw shed.

Sheriff Hayes said he had reports of an unidentified man walking the road in the vicinity this morning. Investigation is being made.

Robert Kelm Selected Lisbon Legion Head
LISBON, July 11.—Robert Kelm was elected commander of the John Welsh American Legion post Thursday evening, at a meeting succeeding Jack W. Clunk.

Other officers elected were: First vice commander, Jack Stockman; second vice commander, Byron Griffith; treasurer, Paul Burnip; adjutant, Carlton Potter; chaplain, Clem McGowan; sergeant at arms, John Schnader; trustee, Richard Rose. Burnip and Potter were re-elected to their offices.

The new officers will be installed August 7.

Same Old Tune

The state department is unwilling to embargo Russian oil shipments for fear of precipitating a diplomatic break. And anyway, it's just a trickle of oil, a mere fraction of a day's production per year at the present rate.

This is the policy we followed while shipping scrap metal to Japan. It was better to continue shipments, policy makers decided, than to risk severance of relations. So the Japanese severed relations in their own good time and in their own memorable manner. We had supplied them with material and got nothing in return except the same material forged into bullets.

What we would lose in a diplomatic break with Russia is trifling. We don't need Russia's gold: our few gourmets can struggle along without her caviar.

The state department is playing the same old appeasement tune of the 1930's and it's one of those tunes that doesn't wear well.

Czechoslovakia Regrets

Czechoslovakia has received its instructions from Moscow. It will not participate in the European economic conference opening Saturday in Paris. This virtually completes the boycott of the conference by nations within the Russian orbit. Only Albania and Finland are still to be heard from and they aren't likely to accept either.

Czechoslovakia's answer reflects the precise shading of Russia's attitude. It had been thought the Czechs might be allowed to participate in the Marshall plan, that Russia's "no" might not be irrevocable. Guided by that astute statesman, Eduard Benes, the Czechs have successfully pursued a middle course in postwar Europe. They possessed political freedom, efficient administrative services and are fairly well on their way to prosperity. Their requested \$250,000,000 World Bank loan, plus the Marshall plan benefits, would have materially speeded their progress. Now they find themselves shut off from Western aid.

An industrious, progressive people caught between two conflicting worlds, Czechoslovakia is a buffer state. As Jan Masaryk once said, "Czechoslovakia is the bridge between East and West—and you know what people use bridges for."

Collusion Is An Ugly Word

Union leaders ranted and raved against the Taft-Hartley act, but it's coal operators who have violated it first, according to Representative Hartley, its co-author.

Hartley says the U.M.W. contract clauses providing for checkoff of union levies other than dues is a violation of the provision that says only dues can be deducted and then only with an employee's consent. He also believes a provision requiring miners to work only when "able and willing" is a weasel-worded subterfuge to keep their union from being responsible for illegal work stoppages.

There is evidence of collusion between mine operators and union bosses to violate both the spirit and letter of the Taft-Hartley act. Parenthetically, if Senator Taft wants to deny this is so, it must be for some reason other than his obligation to defend a law he helped to write.

The plan of this law was to curb the excesses of labor monopolists by defining the rights of wage earners in relations with unions. One of these was the right to draw full pay, with no unauthorized deductions and only one authorized deduction—dues payable to the union. But there were to be no fines and assessments held out. It was to be illegal for John Lewis to assess his union's members for a political slush fund, or the formation of some new union in another industry. The aim was to protect union members from high-handed misappropriations of members' wages.

The coal operators, to appease Mr. Lewis, have ignored this safeguard. They have signified that as far as they're concerned miners are entitled to no protection under the new labor-management act. They have signified that as far as they're concerned the individual rights of workers are of no importance compared with the rights of the labor monopolist who tells the coal industry what it must do to keep him from wrecking the United States by calling a strike. That's the way the wind is blowing. Collusion is an ugly word, especially when one of the parties to it has no other choice.

Some Other Flying Disks

Temporarily, no one can be sure what it is that someone saw, to start the flying disk craze. Perhaps something, perhaps nothing. It's of slight importance. What matters is that such things have happened before and will happen again.

The obvious comparison with sea monsters is oversimplified, though valid. All that's required to make people see sea monsters is for someone to report a sea monster; imagination does the rest. In a like manner, Americans have seen other monsters on a basis of someone's say-so—Wall Street, the cross of gold, agrarian revolt, Tories and isolationists, to name a few.

These were the products of popular imagination, once it had been set in motion by circulating rumors, usually malicious. A good deal of political history has been written by such malice. A good deal more will be written before human beings learn to be rational about their affairs. They will continue to see things in the air and under the bed. They will be the victims of their own imaginations. They will be misled by circumstantial evidence and say-so. They will mistake molehills for mountains—and rarely will the illusion be anything so harmless as disks in the sky.

There goes one now! It is three feet wide, is moving 117 miles an hour and is colored pink. Anyone who says he can't see it is a liar. It's as plain as the plot to enslave wage earners, which has been seen by thousands, all of them honorable men who wouldn't tell a fib if their lives depended on it.

A Prince Consort

Britain's royal family is to have a prince consort for Princess Elizabeth, heiress presumptive who one day will be queen regnant if her parents, the King and Queen, do not have a son. The wedding has been set for autumn.

Britain has had four previous royal consorts—Philip of Spain, husband of Mary I; William III, who shared the throne with Mary II; George of Denmark, husband of Queen Anne, and Albert of Saxe-Coburg-Gotha, husband of Victoria. The status of each was different, William III being the only one who had full royal prerogatives. Historically, far and away the most important was Albert, a calm, intelligent man who was an invaluable helpmeet to Victoria in her early years as queen and whose beneficial influence on English life wasn't fully appreciated during his lifetime.

What Prince Philip's status will be isn't known yet. Royalty's influence having declined, it isn't likely his influence will approach that of Albert, should his mate become queen regnant.

The Stars Say

By GENEVIEVE KEMBLE
For Saturday, July 12

THE astral indications point to the happy and cheering combination of successful and prosperous business, professional, cultural and affectional culminations to cherished hopes and wishes. There is an undertone of the elevating and exalting, in which beauty, charm, romance and culture, have more than usual power to give happiness and success. Much progress toward the climax to such benign goals may be made by concentrated and constructive expression.

Those whose birthday it is may anticipate a year of exceptional and felicitous progress, in which enhanced creative abilities, in the quest of beauty, charm, grace and real values may be accelerated by energy, initiative and practical effort. While ideals, aspirations or spiritual values may be at the root of such activities it will take determination and constructive plans if such high objectives are to find real and lasting expression and worth. Much inner enjoyment and harmony are in sight.

A child born on this day may have high ideals, much creative ability and urge, but these may find objective reality through its concentrated energies, and inspiration as well. Beauty and grace may prove a valuable asset.

GUARDING YOUR HEALTH

Planning Diet Low In Salt

BY HERMAN N. BUNDESEN, M.D.

A SALT-RESTRICTED diet does not mean just going easy with the salt shaker. Many of our ordinary foods in their natural state contain liberal amounts of salt. One of these is milk. Others are barley, lima beans, and onions.

Naturally this poses a real problem for people who have been directed to hold down their consumption of salt to a minimum, as often happens in cases of high blood pressure. Some doctors believe that for patients of this type a well-balanced diet without any particular restrictions other than avoidance of over-eating is best.

On the other hand, Dr. Arthur

Grollman, of the Southwestern Medical College, thinks that if the blood pressure is to be lowered and the symptoms relieved, the amount of salt in the diet must be restricted to a great degree so that the daily amount does not exceed five-tenths or one-half of a gram. One level standard teaspoon contains approximately 4 grams, so this amount of salt would be about one-eighth of a teaspoonful.

The difficulty which arises in planning such a diet is to furnish enough protein without using foods which are high in salt content. Dr. Grollman suggests substituting powdered milk which has much less salt, for the ordinary kind. When

milk is dried to make powdered milk, some of the salt is lost from it. There are a number of other foods which he says should be avoided. These include all salted foods, such as smoked meats, bacon, ham, pretzels, salted butter, olives, pickles, beets, celery, onions, all kinds of seafoods, and relishes.

Lack of Salt

On the other hand, when a diet which is greatly limited in salt is employed, care must be taken that symptoms of lack of salt do not occur, especially in hot weather. Lack of salt may cause such symptoms as nervousness, irritability, and often, complete collapse.

If there is an abnormal kidney condition present, such as kidney inflammation, restriction of salt to too great a degree may cause an increase of certain substances in the blood, such as urea.

Persons who are using a salt-restricted diet often complain of the

insipid taste of food. This can be overcome by using a mixture of substances such as potassium chloride, potassium citrate, and ammonium chloride, which are substitutes for salt. These preparations can be bought at the drug store.

Suggested Diet

In the salt-restricted diet, breakfast, for example, could consist of orange juice, grapefruit juice, one egg plus one additional egg yolk, oatmeal, powdered milk, and coffee. Peaches may also be used.

Meat patties, macaroni, tomatoes, unsalted butter and margarine, and such vegetables as lettuce, string beans, cabbage, squash, and eggplant may also be included.

The composition of foods is so complicated and the whole problem of maintaining the body on a salt-restricted diet is so intricate, it is obvious that anyone employing such a diet should be under the care of a physician who knows how to watch and regulate all the factors involved.

Plus 30 Cream

Fretting won't bring back that soft, appealing bloom to skin past its twenties. But science may help! Plus 30 Cream contains only the genuine hormones found in nature...not a synthetic imitation. When absorbed by the skin, this hormone ingredient tends to replenish Nature's lagging supply of the glandular substance which contributes to the smoothness, the fresh pliancy and radiance of young skin. Women over thirty usually may expect results after using one jar of Plus 30 Cream. Made by Bonne Bell.

Sees Poorest Crops In 20 Years For Northeastern Ohio

(By Associated Press)
WOOSTER, July 11—Harassed by almost continual rain, crops in northeastern Ohio are expected to be the poorest in at least 20 years, Extension Agent George Dustman predicted today.

The most optimistic crop estimate that can be made on Northeastern Ohio crops is for a yield of 75 per cent of last year," the Wayne county agent asserted.

CANNED VEGETABLE SURPLUS ALARMING

The thing to do, they said, is force the State Department and the War Department to send canned goods to the hungry in Europe.

The relief experts so far have refused. They claim a can of tomatoes, for instance, is mostly water and why spend the money to ship H2O abroad?

The canned good fellows said the Europeans need vitamins from tinned vegetables as much as calories from wheat. They said also that if the government doesn't take over some of the millions of cases, many a farmer will go bust (and many a cannery, too) and that'll be the start of a depression.

Rep. August H. Andersen of Minnesota, wondered if any of the boys had thought about cutting prices of peas (which seem to be in greatest surplus) here at home.

"Oh yes," replied William M. D'Miller, secretary of the Cooperative Food Distributors of America, Chicago, a typical witness. "Prices have been reduced. But the people insist on the fancy stuff and they won't buy the standard grades."

Correspondent says Europe Could Use Some, Relieve Overstocked U. S.

By United Press Correspondent By FREDERICK C. OTHMAN WASHINGTON, July 11 — You ladies noticed any slash lately in the price of a can of peas? I thought so.

So today's our day to shed a tear for the boys who find themselves with 67,000,000 cases of canned vegetables they can't sell, a new crop coming up, and nobody standing in line to buy.

There seems to be only one solution. Get the government to do something. So the representatives of the farmers, the canners and the wholesale grocers came to the agriculture committee of the house.

Mrs. Katherine Anderson, clerk at the Kresge store, is taking a week's vacation.

Mrs. Kate Hack of S. Lundy ave. is ill in the Central Clinic.

Marguerite Scullion is vacationing from her duties at the Scott store.

Miss Mary Holsinger of S. Lundy ave. is spending the week at Big Prairie. She is taking a vacation from her duties at the Firestone store.

Board Acts Against Airport

CHARDON, July 11—Use of Geauga county airport was prohibited today by order of Common Pleas Judge Harlan Speery in a court action upholding a complaint by the Bainbridge board of education. The school had asked for an injunction on the grounds that low-flying planes endangered the safety of 250 pupils. The petition was filed against R. C. Rentz, B. A. Lumme, Myrl S. and Florence M. Hill.

Buyers Strike Discussed

CINCINNATI, July 11—A buyers' strike to force down the price of meat was proposed yesterday by the consumer conference of Cincinnati for the week of July 11-15.

CANNED VEGETABLE SURPLUS ALARMING

The thing to do, they said, is force the State Department and the War Department to send canned goods to the hungry in Europe.

The relief experts so far have refused. They claim a can of tomatoes, for instance, is mostly water and why spend the money to ship H2O abroad?

The canned good fellows said the Europeans need vitamins from tinned vegetables as much as calories from wheat. They said also that if the government doesn't take over some of the millions of cases, many a farmer will go bust (and many a cannery, too) and that'll be the start of a depression.

Rep. August H. Andersen of Minnesota, wondered if any of the boys had thought about cutting prices of peas (which seem to be in greatest surplus) here at home.

"Oh yes," replied William M. D'Miller, secretary of the Cooperative Food Distributors of America, Chicago, a typical witness. "Prices have been reduced. But the people insist on the fancy stuff and they won't buy the standard grades."

Correspondent says Europe Could Use Some, Relieve Overstocked U. S.

By United Press Correspondent By FREDERICK C. OTHMAN WASHINGTON, July 11 — You ladies noticed any slash lately in the price of a can of peas? I thought so.

So today's our day to shed a tear for the boys who find themselves with 67,000,000 cases of canned vegetables they can't sell, a new crop coming up, and nobody standing in line to buy.

There seems to be only one solution. Get the government to do something. So the representatives of the farmers, the canners and the wholesale grocers came to the agriculture committee of the house.

Mrs. Katherine Anderson, clerk at the Kresge store, is taking a week's vacation.

Mrs. Kate Hack of S. Lundy ave. is ill in the Central Clinic.

Marguerite Scullion is vacationing from her duties at the Scott store.

Miss Mary Holsinger of S. Lundy ave. is spending the week at Big Prairie. She is taking a vacation from her duties at the Firestone store.

More Questions Answered For Rent-Control Confused Landlords, Tenants

(By United Press)
WASHINGTON, July 11—More questions and answers on the new rent law:
Q. What does the law do?
A. Extends rent control—through Feb. 29, allows a 15 per cent voluntary rent boost in exchange for leases running through 1948. Ends most controls on building.
Q. Can my landlord now automatically raise my rent immediately without my consent?
A. Absolutely not. Rent ceilings generally remain at the same level. Landlords still have to get approval of the area rent director for an increase. Permanent accommodations in hotels, motor courts and tourist houses can be decontrolled immediately on application of the owners.
Q. Is the voluntary 15 per cent rent increase really voluntary, or can my landlord make me sign it?
A. Don't sign unless you want to. It must be voluntary to be legal. By the same token, your landlord does not have to offer you such an arrangement.
Q. Why should I sign it?
A. The advantage is that you get a return a lease at the new higher rate running through 1948. This protects you for that long against possible bigger boosts after rent ceilings expire on March 1.
Q. How about the disadvantages?
A. You pay 15 per cent more rent between now and March 1. If for some reason you move to a new dwelling, you would lose the benefits of the long lease.
Q. Mr. Truman said rent control

has been "irreparably weakened" by the new law. How is this?
A. The principal weakening factor is curtailment of federal enforcement powers. Generally the tenant now must enforce his rights himself, taking his case to local courts. Area rent offices will give him advice.
Q. Can I be evicted?
A. Not if you pay your rent and behave. Only for specific reasons—generally the same as before—can your landlord evict you. It is true, though, that it is now up to you to enforce your rights. Ask the rent office. Then, if you think your landlord is not following the rules, go to a local court. The housing expediter says you are in no more danger of unfair eviction now than before.
Q. What can I do if my landlord overcharges me?
A. Check with your rent office, to make sure of the ceiling. Then go to court. You can collect up to three times the overcharge, plus attorney's fees.
Q. Will the new local rent boards change my situation?
A. Most likely not. Each rent control area will get a local rent board, to be nominated by state governor and appointed by the housing expediter. The board can make recommendations for adjustments either in individual rents or in the general rent level. The expediter, as before, has the final word. Under the law he will reject any unwarranted proposals.
Q. My apartment was completed just last month. Is my rent freed from ceilings under the provision

ending rent controls on new constructions?
A. No. The expediter has ruled that decontrol of priority-built property completed since Feb. 1 does not apply as long as present tenants remain. Once you move out, the apartment is ceiling free. The next tenant could be charged anything the landlord desired.
Q. Now that most building controls are removed, can I build night club or bowling alley?
A. Construction for amusement or recreation still requires a federal permit, and permits usually are not granted for such things. No other construction now requires a permit.
Q. I have planned a new \$50,000 home but heretofore was not allowed to build it. Can I start work now?
A. Get going.

Kensington

Mr. and Mrs. Lester Kibler and family, Mr. and Mrs. Otto Bell of Farmington, Ill., are visiting Mr. and Mrs. Harry G. Roach.
Mr. and Mrs. Chester Haynam of Minerva entertained with a dinner recently honoring the second wedding anniversary of their daughter and husband, Mr. and Mrs. John H. McLoney of Kensington R. D. His parents, Mr. and Mrs. Harry McLoney were also honored, the occasion being their twenty-second wedding anniversary.
Entertain Dads
Approximately 75 members and fathers of the Young Peoples class

of Christian church were present when the group entertained their "Dads" at a June party recently.
Roland Dorr was toastmaster and Freeman Manfull welcomed the fathers. Group singing was enjoyed with Mrs. Donald Archibald at the piano. A men's quartet presented two numbers, with Mrs. Wayne Roach at the piano. It included Floyd Hull, Chester Dorr, Freeman Manfull and Clyde Allen. Floyd Hull sang a solo entitled "A Toast To Fathers." The speaker for the evening was Lorin G. Reeder who has been doing government work in Africa and China for six years. He has been stationed in Shanghai for the past three years and directed his remarks on conditions there.
Gifts were presented to John Brogan, the oldest father; Clyde Allen, youngest father, and to Austin Ray, the youngest grandfather present. Guests were present from Alliance, Lisbon, Homeworth and Mechanicstown.
Mrs. Howard Swearingen entertained members of the Fancy Work club at her home. Eight of the

members enjoyed a theater party and dinner in Canton recently.
Honor Two Events
A picnic dinner held recently at the home of Mr. and Mrs. Louis McGhee was in honor of the 80th birthday anniversary of Mrs. McGhee's father, K. P. Haynam of East Rochester.
The event also honored the sec-

ond birthday anniversary of Judy Wilson, granddaughter of Mr. and Mrs. Louis McGhee.
Five hundred was enjoyed when the Blue Monday club met recently at the home of Mrs. Paul Clapsaddle.
The club will hold its July meeting at the home of Mrs. Mike Kupinski.

Report Costs To County On 11 Criminal Trials

LISBON, July 11—Criminal costs amounting to \$1,867 in eleven cases in which the prisoners are now serving sentences in state penal institutions, were received from the state department today by Clerk of Courts John W. Coleman.

The figure represents the costs of

prosecution of each of the 11 defendants, with the exception of expert witness fees and fees for an Ohio penitentiary guard who returned a prisoner here to testify in the Clinton Daniels murder case, which was not paid by the state.

The costs in the Daniels case, the largest listed, amounted to \$582, less the expert witness fees and guard costs of \$289.

Columbus Employees To Cut Salary Melon

(By Associated Press)
COLUMBUS, July 11.—A \$1,387,917 melon soon will be split up by Columbus city employees at the direction of city council—but it's all money that the city fathers withheld from salaries during the depression.
Mayor James A. Rhodes, councilmen and attorneys for the employees reached an agreement yesterday that the city would repay employees' claims for the five and 10 per cent deductions that were made between 1931 and Feb. 28, 1937 to finance public charity and general operations here.

By agreeing to repay the principal amount before claim suits now on file are sent through the courts, the city saves the interest that might be assessed during the course of litigation.

in the price of grain, livestock and meat. A bumper wheat crop is in prospect.
Coal operators are almost unanimous in predicting that steel prices will rise, and Senator Taft (R-Ohio) has forecast a price boost of about \$1.10 a ton.

The magazine Iron Age, a close reporter on steel developments, this week forecast a \$5 a ton increase in steel—based partly on the coal settlement, the impact of wage settlements earlier this spring with the CIO steel workers, and the fact that the industry still is showing losses on some particular products.

Dr. Emerson P. Schmidt of the United States Chamber of Commerce told a congressional hearing Wednesday that he believes the coal settlement is inflationary and will touch off a general demand for higher wages.

Lisbon Teachers' Average Salaries Up Again In 1947

LISBON, July 11.—The annual report of the Lisbon schools submitted today by George C. Porter, clerk, shows a slight decrease in attendance for the school year just completed, with 937 pupils enrolled while 1,032 were registered the previous year.

The average yearly salary of the 38 teachers employed last year, was \$1,831.31 in the grades, while high school teachers received an average of \$2,126.25, representing a \$200 increase to each over the previous year.

Additional increases for teachers is expected next year under provisions of the Daniels-Cramer school bill which recently passed the legislature, although figures are not available.

Asks Court To Stop Man Dating Wife

(By Associated Press)
CLEVELAND, July 11.—Buster Harbican asked common pleas court today for an injunction to prevent another man from taking his wife out on dates.

Married for 15 years, Harbican charged in the petition that A. W. Schmidt was alienating the affections of his wife, Helen Harbican.

He said a restraining order was his only recourse.

Harbican said Schmidt had been taking his wife to the movies and other places and had been visiting her at his home—particularly during Harbican's absence.

Court attaches said the case was the first of its type in its memory.

CAN'T HALT OIL SHIPMENTS TO REDS

Congressman Blasts Commerce Dept. For Lack of Care of U. S.

(By Associated Press)
WASHINGTON, July 11—Chairman Weichel (R-Ohio) of the house commerce committee acknowledged today that he is stumped in his efforts to block oil shipments to Russia.

He blasted as "arrogant" the action of the commerce department in granting export licenses that will permit the departure of three Soviet-bound tankers now being loaded on the west coast.

Undersecretary of Commerce William C. Foster conceded to the committee yesterday that his office had granted the licenses only a few hours after Weichel phoned him to insist that they be refused.

Claims Shipments Normal

Foster said (A) the shipments were normal, (B) the department intends to continue to export petroleum products and (C) a halt might upset the world market and result in a drop in this country's own petroleum imports.

He added that such a stoppage would cause "chaos and confusion" in "friendly" countries.

Foster said, however, that export quotas will be fixed soon on the basis of this country's requirements and supplies.

Weichel, late, told newsmen "there's apparently nothing we can do about it."

"It's obvious," he added, "that the commerce department can't be trusted to take care of this country's own defense and domestic requirements for oil."

try's own defense and domestic requirements for oil."

Weichel has introduced a resolution which would require the war, navy and commerce departments to certify that future petroleum exports—on a shipment-by-shipment basis—would not impair the national defense nor interfere with full domestic requirements.

FAIRFIELD

Miss Dorothy DeRhodes, daughter of Mr. and Mrs. M. L. DeRhodes, Lower Elkton road, became the bride of Lieut. Thomas Hess, son of Mr. Allan Hess, Kinsman, and the late Mrs. Hess, at a candlelight service in the East Fairfield Methodist church at 7:30 p. m. Wednesday.

Rev. C. E. Richardson performed the double ring ceremony with open church being observed. The altar was decorated with palms, ferns, white gladioli, feverfew and two seven-branch candelabra.

Miss Carolyn Swope presented nuptial music and accompanied the vocalists, Miss Evelyn Albright and Mrs. Larry Bable.

The bride, given in marriage by her father, made a lovely picture in her floor length wedding gown fashioned from white embroidered taffeta and wearing a finger-tip veil held in place by a halo of orange blossoms. Her bridal bouquet of white roses and gypsophylla was centered with a white orchid.

Miss Barbara Hess, sister of the bridegroom, was bridesmaid. She wore a blue marquisette dress and head band of flowers to match her dress. Her flowers were pink roses and gypsophylla.

Curtis Cope attended the bridegroom as best man. The bride's brother, Walter DeRhodes, and Eugene Beckett were ushers.

A reception for 50 guests was held at the home of the bride's parents, following the ceremony. The refreshment table, laid with a lace cloth, was centered with a

three-tiered wedding cake topped by a miniature bride and groom. The table was further enhanced with a plateau of flowers and lighted tapers in crystal holders.

Before leaving on a trip to Detroit, where Mr. Hess served as best man at a wedding, Mrs. Hess donned a pink linen suit with white and brown accessories and wore the white orchid from her bridal bouquet.

Both bride and groom are graduates of Fairfield High school. Lt. Hess recently graduated from Officers Candidate school and is stationed at Keesler field, Biloxi, Miss.

At the conclusion of his furlough

the couple will leave for Keesler field. Mrs. Hess is a granddaughter of Mr. and Mrs. Albert Bonsall of Salem.

Cleveland Wins Pair; Black, Feller Victors

Righthander Tosses No-Hitter, But Relies On Top Fielding To Get His First

By JACK HAND
(Associated Press Sports Writer)

Don Black, a reformed character who was "all washed up" a year ago, has eclipsed his famous Cleveland teammate Bobby Feller by pitching the first no-hitter of the American league season.

The Indians' righthander, whose elbow bending cost him one big league job and sent him shuffling off to the minors two seasons, is the No. 1 man of the Cleveland staff—at least for one brief 24-hour period.

Black's effort was a little spotty in the early stages. He walked the first two men he faced and leaned heavily on his mates' fielding en route to his dazzling success against his old Philadelphia Maties.

Rain halted the scheduled twilight game in the second inning for 45 minutes.

Joe Gordon's overhead running catch of an Elmer Valo pop fly in right field in the third inning was the fielding gem that saved the day.

Feller, whose aching back forced him to miss the All-Star game, racked up his 11th victory in the 2-2 second game but he required help from Ed Kliehan in the ninth to save the edge given him by Hank Edwards' two-run homer.

Lefty Joe Page, the New York Yankees' relief ace, added a new turn to his specialty and batted a ninth-inning home run that sunk the St. Louis Browns, 4-3. Spud the St. Louis Browns, 4-3. Spud the St. Louis Browns, 4-3. Spud the St. Louis Browns, 4-3.

Page's homer stretched the Yankees' win streak to nine and boosted their lead to 8½ games over Detroit and Boston, who played a 2-2 tie game, called at the end of the eighth when the twilight became darkness.

Washington took both ends of a doubleheader from Chicago, 4-0, behind Early Wynn who registered his 10th win and 7-2 behind Rae Scarborough.

Brooklyn's Ralph Branca joined the parade of pitching headlines by copping both games for Brooklyn against Chicago, the first 5-3 with the aid of relief help from Hank Behrman and Hugh Casey and the second 4-3 as a reliever for starter Harry Taylor.

The Braves frolicked for 16 hits in winning a 6-4 day game from Cincinnati for Reliever Clyde Shoun as Tommy Holmes hit two homers. But the night game was a different story with the Reds' Bud Lively besting Bill Voiselle with a three-hitter, 2-1, on the stretch of Babe Young's two-run homer.

St. Louis subdued the New York

DINER CONTINUES SOFTBALL MARCH

The Diner continued its winning ways Thursday night in American league softball play at Centennial park by defeating the Hunter nine 5-0. They remain at the top of the loop with five straight wins.

Bob Miller and Kirby Laughlin each notched two hits for the winners. Bill Shoen twirled four hit ball for the Diner.

Frattilas kept one game off the pace by decisively drubbing Hannays 15-6 on another four-hitter by Jack King. Del Fowler slapped out four hits in five tries to lead the batters.

The Recreation took its fourth beating of the round at the hands of the Cottage by a 4-2 count. Jim Kleon set down the Rec with four safeties. His mates got five off Phil Phillips.

In the other National loop tilt, the Golden Eagle defeated the Printz club, but the official scorebook was so badly written that the score, hits and runs were illegible.

Sport Chatter

BY HUGH FULLERTON, JR.

NEW YORK, July 11.—Joe DiMaggio, 11, nephew of the Yankee clouter, is playing American Legion baseball for Galileo post of San Francisco. At the last report he was hitting .465 but he wasn't known as much for that as for his habit of stealing four or five bases a game. That's more than Uncle Joe can do. Ezzard Charles plans to build his weight up from the normal 173 pounds to around 180 for his venture into heavyweight circles — which still won't make him big enough to fight Joe Louis.

Maurice (Rocket) Richard, who seldom gets hurt in a rough hockey game, busted his nose recently when he ran into the stands chasing a foul ball while playing baseball. Although Auburn's track team produced three Southeastern Conference champions this spring, it was not represented in the National Collegiate A. A. championships. Reason: lack of funds.

IN A STATE
The Class "D" North Atlantic league has four clubs in Pennsylvania, which has a Sunday baseball curfew, and four in New York state, which doesn't. So many called a game in Kingston, N. Y., recently because he remembered a law that teams couldn't start an inning after 6:50 p. m. The only thing that puzzles Prexy Ernie Landgraf is how the ump found his way to the right park in the first place.

BOOTS AND HER BUDDIES
BOOTS: DO YOU THINK DUD IS UP TO SOMETHING HE ISN'T TELLING ME ABOUT?
COULD BE! HE TOLD ROO HE WASN'T SATISFIED WITH THE WAY THE MAYOR WAS RUNNING THE TOWN!
NOW LOOK, DUD, THE MAYOR HE NEEDS YOU AS HIS RIGHT HAND MAN! AND THEN AGAIN, MAYBE HE DOESN'T!
JUST BECAUSE YOU HAVE A DINKY LITTLE JOB IN THE WATER DEPARTMENT DOESN'T SET YOU UP AS A CIVIC VIRTUOSO!
DONT YOU WORRY ABOUT ME, JUNIOR! DUDLEY DUD DUDS AGAIN!
THERE GOS A GOOD MAN! BUT I THINK I'D BETTER WAIT HERE AND PICK UP THE PIECES!

SPRING LAKE, N. J., July 11.—Big Bob Falkenburg of Hollywood, Cal., and top-seeded Frank Parker of Los Angeles, face each other today in the feature quarter-finals match in the men's singles at the Spring Lake invitational tennis tournament.

Falkenburg, the London grass-courts champion, reached the quarter-finals by beating J. Gilbert Hall of New York City, 614, 612, and Kenneth McCarthy of Fresno State, 6-4, 715. Parker had already qualified.

CHICAGO — Rocky Graziano, trained to a fine edge for his championship fight with Welterweight Titleholder Tony Zale Wednesday, planned to lay off ring workouts today.

Zale, meanwhile, moved his training camp from a northside neighborhood boxing arena into the loop's Ringside gymnasium. Sam Pian, manager of the champion, said Zale also was in fine shape and that he would taper off in the remaining pre-fight workouts.

BIG-CAR QUALITY

You'll like that Big-Car styling!
You'll like the long, low lines of the new Chevrolet. You'll like the look of massiveness and sturdiness. That big, beautiful Unisteel body is by Fisher, you know—the only Body by Fisher in the low-price field!

THIS—you'll love!
But your greatest thrill will come when you find out that Chevrolet is the lowest-priced line in its field... and the line that costs less for gas, oil and upkeep. Chevrolet's the one car that gives you Big-Car Quality at Lowest Cost!

You'll like these Big-Car features!
Chevrolet's packed with features that give you Big-Car comfort and safety. Positive-Action Hydraulic Brakes, for example, with exclusive design features for safer, surer stops. Unitized Knee-Action, for instance, that adds stability and ease of steering, as well as riding comfort.

You'll like our service, too!
—for the way it keeps your car at its best all the year round. Drive in soon—and regularly.
